Milestone Moments of Q2 2025

- One of our Family Advocates completed training through the American Society of Addiction Medicine focused on obstacles of families served, as well as their strengths and support structure
- Family Advocates coordinated with volunteers to put together prenatal bags
- Family Advocates shared stories on Brigid's Path social media to share the experiences and stories of the families we serve
- A Family Advocate attended court with a Brigid's Path mom as a member of her support team, and mom was able to regain custody!

Q2 Serving 2025 FAMILIES

Family Successes

"It's a privilege to be able to say we were blessed enough to have gone through Brigid's Path and a place like that exists. I definitely want you guys to stay a part of our lives!"

- Children's Services advocacy
- Food resources
- Post-partum depression class hosted by Family Advocates

Most common family needs identified by Family Advocacy in Q2 2025:

- Housing
- Transportation
- Clothing
- Children's Services navigation

Stories of Transformation

During Q2 2025, our Family Advocates had the privilege of supporting a dedicated Brigid's Path mom on her journey toward reunification with her child. Through determination and unwavering commitment, she exceeded every expectation set by Children's Services. Since entering residential treatment, she has maintained her sobriety and consistently attended her weekly recovery meetings.

Her hard work has paid off—she is thriving in her job, recently secured her own apartment, and just purchased a car. Most importantly, she was recently awarded custody of her child. Her journey has been marked by resilience, growth, patience, and incredible perseverance. We are so proud of all she has accomplished, and our Family Advocates are honored to have walked beside her throughout this inspiring chapter.
